

periods that firefighters are often on duty. Employees who are covered by Section 7(k) may work up to 212 hours within a period of 28 consecutive days before triggering the overtime pay requirement.

The Department of Labor's regulations specify that rescue and ambulance service workers, sometimes referred to as emergency medical services personnel, may be eligible for the firefighter exemption if they perform duties that are an integral part of the agency's fire protection activities, but an employee may not perform activities unrelated to fire protection for more than 20 percent of the employee's total hours worked.

Many State and local governments employ EMS personnel who receive training and work schedules and maintain levels of preparedness which is very similar to that of firefighters. In the past, these types of employees fit within the 7(k) overtime exemption.

In recent years, however, some courts have narrowly interpreted the 7(k) exemption and held that emergency medical services personnel do not come within the exemption because the bulk of their time is spent engaged in nonfire protection activities. These lawsuits have resulted in State and local governments being liable for millions of dollars in back pay, attorneys fees and court costs.

So there is a real need to modernize this area of the Fair Labor Standards Act and to clearly specify who can be considered a fire protection employee for purposes of the exemption.

H.R. 1693 clarifies the law by specifying the duties of employees who would be eligible for the limited overtime exemption. The bill would ensure that firefighters who are cross-trained as emergency medical technicians, HAZMAT responders and search and rescue specialists would be covered by the exemption even though they may not spend all of their time performing activities directly related to fire protection.

Finally, the bill would clear up the confusion that employers face in trying to interpret the law. A misinterpretation of the law could needlessly expose local governments to significant financial liability and dramatically increase the cost of providing adequate fire protection services.

H.R. 1693 is a narrow bill, but one that is important in helping State and local governments provide fire protection and emergency medical services in a most effective and efficient way possible. I would urge my colleagues to support this clarification.

Mr. Speaker, I reserve the balance of my time.

Mr. CLAY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I support this bill. Under the 1985 amendments to the Fair Labor Standards Act, the 7(k) exemption was intended to apply to all firefighters who perform normal firefighting duties. H.R. 1693 provides that

where firefighters are cross-trained and are expected to perform both firefighting and emergency medical services, they will be treated as firefighters for the purpose of overtime. However, where emergency medical technicians are not cross-trained as firefighters, they will remain outside the purview of 7(k) and will be entitled to overtime after 40 hours a week, even if the emergency medical services are placed within the fire department.

This bill is supported by both management and labor. The policy it reflects ensures that unreasonable burdens are not placed upon fire departments in accounting for hours worked.

I commend the sponsor, the gentleman from Maryland (Mr. EHRlich), for his efforts to produce consensus legislation, and the chairman of our committee, the gentleman from Pennsylvania (Mr. GOODLING), for bringing this bill to the floor. Mr. Speaker, I urge a yes vote on H.R. 1693.

Mr. Speaker, I reserve the balance of my time.

Mr. BOEHNER. Mr. Speaker, I yield 3 minutes to the gentleman from Maryland (Mr. EHRlich), the sponsor of this legislation.

Mr. EHRlich. Mr. Speaker, I thank my friend, the gentleman from Ohio (Mr. BOEHNER) for yielding me this time.

Mr. Speaker, from its inception, the Fair Labor Standards Act has exempted fire protection employees from the traditional 40-hour workweek. Historically, any emergency responder paid by a fire department was considered to be a fire protection employee. However, recent court interpretations of Federal labor statutes have rendered this definition unclear.

Mr. Speaker, H.R. 1693 seeks to clarify the definition of a fire protection employee. The bill reflects the range of lifesaving activities engaged in by today's fire service, built upon its long tradition of responding to all in need of help. Specifically, today's firefighter, in addition to fire suppression, may also be expected to respond to medical emergencies, hazardous materials events, or even to possible incidents created by weapons of mass destruction.

The issue addressed by H.R. 1693, Mr. Speaker, concerns fire department paramedics trained to fight fires who have prevailed in several civil suits for overtime compensation under the FLSA. The paramedics successfully argued they were not fire protection employees covered by the FLSA exemption since more than 20 percent of their normal shift time was spent engaged in emergency responses rather than firefighting, such as emergency medical calls.

The U.S. Supreme Court has declined to consider these cases, thus exposing city and county governments to compensation liability for unpaid overtime into the millions of dollars. For example, one subdivision I am privileged to represent, Anne Arundel, Maryland,

taxpayers are liable for \$3.5 million under a recent FLSA case.

The potential consequences of these cases are serious and far-reaching and could ultimately result in a dramatic increase in the local costs of fire protection to taxpayers nationwide.

This bipartisan bill is supported by the International Association of Firefighters, the International Association of Fire Chiefs, the National Association of Counties. Labor and Management support this bill as a remedy, as the remedy, for an increasingly serious situation.

Keep in mind, Mr. Speaker, H.R. 1693 only affects those who are trained, prepared and have the legal authority to engage in fire suppression, but also work to save lives in so many other ways. This bill clarifies the law by more precisely defining those duties that should qualify for the firefighter exemption, thereby preserving the intended flexibility afforded to cities and fire departments under the original Fair Labor Standards Act.

On a point of personal privilege, Mr. Speaker, I would like to thank the gentleman from Ohio (Mr. BOEHNER) for managing the bill on the floor, the gentleman from Pennsylvania (Mr. GOODLING), the chairman of the full committee, the gentleman from Pennsylvania (Mr. WELDON), the gentleman from New Jersey (Mr. ANDREWS), the cochairs of the Congressional Fire Caucus.

Mr. CLAY. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. BOEHNER. Mr. Speaker, I have no requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Ohio (Mr. BOEHNER) that the House suspend the rules and pass the bill, H.R. 1693.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. BOEHNER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 1693.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

SENSE OF CONGRESS THAT SCHOOLS SHOULD USE PHONICS

The SPEAKER pro tempore. The pending business is the question of suspending the rules and agreeing to the concurrent resolution, H. Con. Res. 214, as amended.

The Clerk read the title of the concurrent resolution.
